

UltraSnap™ | Surface ATP Test

UltraSnap™ is a user-friendly ATP surface test designed for use with Hygiena™ luminometers. This all-in-one test contains a pre-moistened swab bud for optimal sample recovery. A unique liquid-stable reagent provides superior reproducibility and robustness. Hygiena's patented Snap-Valve™ technology facilitates easy activation.

Benefits:

- Pre-wetted swab maximizes sample recovery and breaks through biofilm
- Unique liquid-stable reagent gives superior sensitivity and reliable results
- 100% recyclable plastic
- 15-month shelf life at refrigerated temperature (2 - 8 °C)
- 4-week shelf life at room temperature (21 - 25 °C)

UltraSnap™ Detection Limit

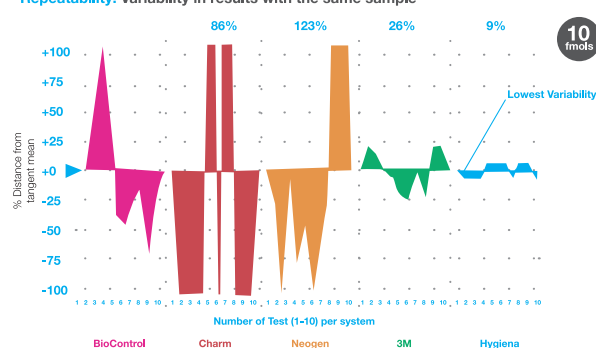

10 fmol	1 fmol	.1 fmol	.01 fmol	.001 fmol
1×10^{-14}	1×10^{-15}	1×10^{-16}	1×10^{-17}	1×10^{-18}

Performance:

UltraSnap's superior performance was validated in a third-party study conducted by a large reference laboratory. Hygiena's system demonstrated superior repeatability, and outstanding performance for linearity, sensitivity, and accuracy over other ATP systems.

Repeatability: Variability in results with the same sample

EnSURE™ Touch

EnSURE™ Touch Monitoring System

EnSURE Touch is the next-generation quality monitoring system. It provides rapid and accurate sanitation verification to support your food safety program. EnSURE Touch features a 5" touch screen, wireless sync technology, and cloud-based software. EnSURE Touch is designed to adapt to your workplace, providing the data you need for complex multi-location supply chain monitoring, audit and risk management, and recall prevention.

AquaSnap™ Water ATP Tests

AquaSnap measures ATP found in liquid samples, utilizing a honey dipper to consistently collect 100 µl of liquid sample. The device uses a liquid-stable reagent in place of freeze-dried enzymes giving it superior reproducibility and sensitivity. AquaSnap is available in Total and Free format.

SuperSnap™ High Sensitivity Surface ATP Test

SuperSnap is the most sensitive ATP surface test in Hygiena's ATP hygiene monitoring portfolio of all-in-one devices. Designed to work with all Hygiena luminometers, SuperSnap is an all-in-one test which detects extremely low levels of ATP. SuperSnap is predominantly used in food and beverage processing facilities as an allergen cross contamination prevention.
